Gun Racks Tri-Lock™ Weapon Mounting System

Pro-gard™
PRODUCTS LLC.

Tri-Lock™ Weapon Mounting System

Features of the Tri-Lock Weapon Mounting System

- **Available in Vertical Partition Mount and Self-supporting Mount**
 - Up to three weapons: one handgun and two long guns
- **Adjustable brackets and lock heads**
 - Weapon mounting location is adjustable and can be determined at point of install
 - Greater flexibility to accommodate various weapon types and accessories
 - Does not require the Gun Rack Order Form
- **Locking Handgun Box***
 - Secure weapons, evidence, and other items conveniently next to the driver's seat
 - Adjustable mounting location accommodates consoles and other items stowed in the recessed panel area
 - Eliminates need to store handgun in lockers when processing prisoners
- **Momentary switch with 8 second delay timer**
 - Choose from three different key styles: Handcuff, Straight, or Vending
- **Durable, powder coated steel finish**
- **No holes drilled installation**

Features of the Self-supporting Mount versions

- **For vehicles without Partitions**
- **Fits comfortably behind most aftermarket consoles**
- **Guns line up with seat edge for easy access that won't interfere with driver's range of motion**

Features of the Partition Mount versions

- **Fits on Pro-gard's Space Saver and Space Saver Plus Partitions (with recessed panel)**

** requires different key override than the standard long weapon lock heads*
